

Bell Whaley

June 11, 2026

Bell was an 8 year old mixed breed. She was the definition of a soft mouth lab. Bell was gentle and always there for her people, she also had a bit of a mischievous side. She was a runner. She would run after her ball, run to her people and also try to run away from home from time to time. She once stopped traffic on an escape mission even after her leg was amputated due to cancer she would still run but when she would get caught she would always come home with a smile so proud of herself. Squeaky toys never stood a chance with her she was champion destroyer of all things that squeak. Bell loved to sun bath and take car rides her favorite car rides were taking her tiny humans to school in the mornings. Bell will be deeply missed by her family and her best pal Tucker. Run free sweet girl run with all 4 of your legs again. Run with no fences and no more pain.

Rest In Peace Bell
