Boss was a 3 year 10 month old XL Bully. His favorite toy was socks, and favorite treats were milk bones and chewy dog treats. Boss's favorite things to do were to give love and receive love. A favorite memory was that he brought the family we have today together. Boss was just 3 weeks old when I first met him. The kids and I were at speedway on 60, when we first ran into Marley and Boss. The kids asked if they could pet him, and he's been our pal ever since.

Rest In Peace Boss
