

Chewy DiNozzo Webb

October 7, 2025

Chewy DiNozzo Webb was a 13.5 years old black pug, his favorite toy was a roped ball on a rope when he did play, and his favorite treats were cucumbers, pizza, zucchini, carrots, and roast. Some of Chewy's favorite things to do was Chewy loved to sleep, lay with me "his mommy and daddy". He loved pizza like crazy lol. When he was younger he liked to have his picture taken, not so much as he got older. When he was a puppy, me and my husband would go for 4-wheeler rides and Chewy would sit on the gas tank and he loved that. He loved being outside when it wasn't really hot. My favorite memory. I don't know if I could just pick one. He was not just my pet he was my baby. When I would lay down on the couch he would come and lay behind me and put his face in the back of my neck and go to sleep. We were canning pickles and I was slicing them and dropped one, and Chewy grabbed it and took off with it. That's how we found out he liked cucumbers. He would always wrap himself up in his blankets like a burrito. He was so tiny when we brought him home that he would fit in the palm of my husband's hand. He hardly ever barked unless he needed to go outside or he missed you.

Rest In Peace Chewy
