

Cuddles Lester

June 14, 2025

Cuddles Lester, a young Green Cheeked Conure, passed away Saturday, June 14th, 2025. Cuddles is greatly missed by her dad and mom, Tim and Jessica Lester, and her sisters, Cailey, Hailey, and Addilyn. Cuddles is also missed by the rest of her flock, Ducky, Charlie, and Mezzo. Cuddles was a one of a kind bird. She loved to cuddle which is where she got her name. She was a spunky bird, playing hide and seek with us. She was a very curious bird, always wanting to see and explore all the things. She was also so very smart, and already learning to talk. One of her favorite things to say was, "Out!". She was out with us most of the time when we were home, but if she wasn't and we walked by her, she would say, "Out! Out!" her soft little sounds and words are so missed. She's left a hole in our hearts that will remain forever. As the saying goes, "You were our favorite hello and our hardest goodbye!" We loved you oh so much for all of your life Cuddles, and we will miss you for the rest of ours! Spread those beautiful wings and fly high our baby bird! May you have all the head scratches and kisses forever!

Rest In Peace Cuddles
