

Dallas Stanley

December 26, 2025

It's with heavy hearts, we had to say, "see you later" to our beloved German Shepherd, Dallas, on December 26, 2025, 9 years old after a short battle with cancer. He joined our family on January 6th, 2021, after seeing his photo on a website for rehoming or adopting pets and meeting his former family. He could speak, sit or shake on command and knew he was going on a car ride without us saying a word. He loved meeting new people, car rides, and long walks. His favorite snacks were Milk Bone dog biscuits, Pupperoni beef sticks and a juicy bone on occasion. He also had a unique way of conveying his joy to us whenever we returned home from work by grabbing his favorite camouflage blue shark or some other squeaky toy and shake his head around in a playful manner. A favorite memory of Dallas, I loved how he would shake his head while playing with his toys and start barking at me when I would lightly mist him with the water hose. He would meet me at the garage door when I entered and would walk backwards to let me pass through. Dallas will be deeply missed and he left his paw prints on our hearts forever.

Rest In Peace Dallas

Tribute Wall

JB

“ He loved his dog bed I bought him. Wasn't big enough for him, but he laid in it anyway. I liked walking him when Kathy would bring him into work with her.
