

Flurri Bell Coniff

April 17, 2026

Flurri Bell was a 8 year old White Domestic Shorthair Kitty. Her favorite toy was a Pet Laser Pointer, and favorite treat was Tuna. Flurri Bell loved watching ice melt in the sink. A favorite memory of Flurri Bell is the night we found her, she ran towards us and jumped into our arms. We felt very blessed she chose us to take care of her. The story of Flurri Bell takes place 8 years ago, on a hot July night when we were getting a late night snack at Taco Bell we saw you. You were scared and crying. The girl at the drive thru window told us they had seen someone throw you out of a truck and leave. We went back and called for you honestly expecting you to run from us but instead you came running to us. It was this night that you became a part of our family. Flurri, you were not the most feminine kitty, and honestly preferred rough housing with the other boys rather than primping with the girls. You would often lay in ways very unbecoming, and we would tell you it was not very lady like; but you didn't care and honestly, we would have never had you any other way. We will always remember you chasing the laser pointer as well as the other cats. Meowing like a goat whenever you felt like you were being ignored and even begging to eat the shuck when we were preparing corn on the cob. There are many more things we will always remember about you, but know this, you will always be in our hearts and we love you and every-time we stop late at night for a taco at the Taco Bell we will always think of you, our Flurri Bell.

Rest In Peace Flurri Bell
