

Jasper Blankenship

March 21, 2025

Lived 14 happy years with his family. Kyle, Ashley, Brayden and Brantley. He was a lab/mix.

He passed away March 21, 2025. He was a very friendly dog, who loved people. The only thing Jasper hated was orange cats, and other dogs getting attention. He loved going hiking, swimming, or just short walks around his beloved neighborhood. Jasper was an icon in the neighborhood of Terrace Drive. He knew everyone's work schedules, and would greet the neighbors home from work. This benefitted him because his neighbors loved him very much, and always gave him the best snacks. He also loved his mail carriers, trash truck drivers, and Walmart delivery people. Most days, he spent lying on his driveway in the sun, warming his fur. He would patrol what was happening around his house and neighborhood.

Jasper looked forward to going on car rides or "bye-bye". He loved going through the drive thru at Wendys for a plain cheeseburger or Austins Ice Cream for a pup cup. He especially enjoyed slow, non hectic mornings, when his mom was home from work, and he could take his boys to school and pick them up.

Jasper was loyal to his family, and gave his family lots of love and emotional support over the years. Everyone was his "favorite" but he had a special connection with his dad, Kyle, who gave the best ear rubs.

He will never be forgotten, and may go down in history as the best dog ever.

Rest In Peace Jasper
