

Mr. Dog Drastura

March 31, 2026

Mr. Dog was a Shih Tzu, his age roughly 14-15 years old. Mr. Dog didn't have a favorite toy, but he liked to grab one from the toy room downstairs, bring it up to the living room, and abandon it. As soon as we got a pile of toys, we took them back downstairs. Mr. Dog liked to spend some man time with his Daddy, going to Lowe's, riding in the basket. He helped Daddy make manly decisions. He also liked to sit in the front window and watch cars go by. When we came home, he was always there waiting. He'd get so excited! "Lucky" had been a stray. We were just supposed to have him for a week while he recovered from a surgical procedure. That's why I gave him a "temporary" name, Mr. Dog. Our friend was eventually going to try to find a rescue group for him. Well, once Mr. Dog posed and looked up at us with those big brown eyes, we said, "No rescue group necessary! We want him with us forever." He was with us for 12 years and three months.

Rest In Peace Mr. Dog
