

Prince "Princy" Ross

October 28, 2017 - August 7, 2025

Prince was only 7 years old and full of life and love. His favorite toy was any toy that squeaked, his favorite treat was cheese, he would come running when he would hear the sound of the cheese being opened. His favorite things to do was take walks and cuddling on the couch with his family. Prince had a rough start to life he was our rescue dog we always said we rescued him, but he rescued us as well. He brought so much love into our heart and made our family complete cause we needed him as much if not more than he needed us. Our heart breaks with the thought of him not being with us anymore and will forever be missed, until we meet again.

We Love You Forever Little Buddy

Rest In Peace Princy
