

Rosie

May 29, 2016 - August 24, 2024

Rosie was an 8 year old, Gemini, English Bulldog that unexpectedly passed at home in her sleep early morning Sat August 24, 2024. Rosie had a multitude of nicknames, Rosebud, fat girl, golden delicious baked tater, and little nugget. Rosie didn't have one favorite treat, she loved them all, anything that her humans dropped, or human siblings would sneak and feed her. Rosie is survived by her 3 human siblings Maggie (3), Ariana (10) and Bentley (9). Fur siblings Bandit (12 Boston Terrier, Moose 4 Lab/Heeler) Mama (Kelcee), Dad (Mike), Dog Mama (Lulu) and Papaw (Jerry) along with so many of mama and dad's friends and family. She was preceded in death by 2 other fur siblings Lily (Boston Terrier) and Turds (Boston Terrier) Rosie's favorite activities were sleeping (preferably in between mamas knees under the blanket, or with her face planed on top of mamas head) and snuggling with mama, eating, playing in her kiddie pool, playing with her fur siblings/human siblings. Rosie was as sassy as they come and had the best personality. She never met a stranger and loved so big. She loved being the center of attention, loved having her picture taken, loved playing dress up in bows, costumes, and different doggie clothes, loved mani/pedi time, keeping the people updated with her social life via her Instagram @lilly_bandit_rosie, bark boxes, hanging out on the porch in her chair next to her mama, going on public outings with mom, shopping or events happening around town. As long as she was with her mama she did not care. She was her mama's little sidekick. Mama was her human. No other pup will

ever compare, and she is deeply missed and unconditionally loved by her family.

Rest In Peace Rosie
