

## Simon Huffman

November 8, 2024

Simon was a 16 (estimated) year old Siamese/Dumpster kitty. His favorite toy was whatever box he chose that day. Simon liked "sharing" lunch with us. Simon's favorite thing to do was loudly greet every employee at Academy Animal Hospital every morning until he had received enough pettings. Then curling up and snoring on his chosen box. Favorite Memory: Simon was dumped here at the clinic 13 years ago and quickly appointed himself as manager. He ruled with an iron paw, which he would smack you with if you walked past him without stopping for a belly rub.

Rest in Peace Simon
