

Spike Alexander Carter

October 29, 2025

Spike was a 15 year old Pekingese mix. His favorite toy is a little green frog that he kept in his bed, and his favorite treats were Beggin Treats Pizza and Pupperoni. Spike's favorite thing to do was to sleep and be held. And not let you eat because you had to give him the food from your plate. A favorite memory. I just can't pick one. My husband had a stroke and Spike would walk with him step for step every time they would take a walk together. He loved to steal the candy Smarties. When I would get my white blanket for nap time he knew it and was always ready and wanting to take a nap with me. He would bark and bark when he was out of water and even sometimes when he wasn't out of water just for meanness. When my kids or grandkids would come in with a pizza box he would follow them until they gave him pizza. He loved his pizza. When my grandkids stayed he always tried to sleep with them. He always loved to go for rides in the car.

He was more like a child than he was a pet. I will always love and miss my boy dog Spikey. ♡

Rest In Peace Spike Alexander Carter
