

## Spike "Pikers" Salmons

April 15, 2025

Spike or "Pikers" was a 15 year 1 month old German Sheppard mix. His favorite toy was any type of tug toy and his favorite treat was peanut butter pretzel bites. Spikes favorite thing to do was, he loved going to the lake. Playing in the sand and water were his favorite things. He also loved spreading fresh straw for his bedding. A favorite memory of Spike is over this past summer his meemaw got a couple of bottle baby goats. They were kept up in a kennel on the back porch so they were safe. One morning we found spike laying beside the baby goats and wondered how in the world had he gotten out of his kennel he was only out when we were out. We watched the cameras and found that two stray dogs had shown up and found the baby goats and had tried to get them. In the video you could hear spike ramming his gate three times before busting out and chasing off the stray dogs. He then came back. Sniffed all around the baby goats to make sure they were okay. Then laid beside them until his meemaw came to put him back up.

Rest In Peace Spike "Pikers"
